

SSAS 2008 Community Challenge – Bowling for MDAS

The **Muscular Dystrophy Association (Singapore)**, MDAS, is a self-help organization formed in 2000 to uplift the lives of people with Muscular Dystrophy. Muscular Dystrophy is characterised by the development of muscle weakness, wasting and contractures, that are usually progressive and sometimes life threatening. Presently, there is no cure for this disease. MDAS wishes to maximize the quality of life of people with Muscular Dystrophy and their families, to integrate them into society and support research towards a cure.

The **Security Systems Association of Singapore**, SSAS, has selected MDAS as our 2008 Community Challenge Partner with the goal of raising critical funds for MDAS as well as providing an opportunity for MDAS families and SSAS members to jointly participate in this event. The SSAS 2008 Community Challenge – Bowling for MDAS will be the first bowling event in Singapore for those confined to motorized wheelchairs.

Each of the thirty (30) lanes at Superbowl Jurong will be sponsored by a SSAS company at \$800 each. On the day itself, employees and families of SSAS member companies will join MDAS participants and families. This event will take place on 13th September 2008, 12:30 p.m. at Superbowl Jurong. Lunch will be provided.

Hence, for such a meaningful event, we hope that your company will consider making a generous contribution. The amount of money contributed will be fully donated to MDAS for funding their services and programs with emphasis on mobility funding. Your support for MDAS will bring the people with Muscular Dystrophy a more enriching and fulfilling life.

For more information, please contact Mr. Jason Kurek at 96330618 or jpk@simonsvossasia.com. We are pleased to enclose herewith a reply form to facilitate your sponsorship and participation. We look forward to a favourable reply from your company.

Reply Form

Please tick accordingly.
